

FAST GRAB

DECON KIT

- (10) 12" X 12" FIBERTECT WIPES
- (4) FIBERTECT MITTS
- (4) RESPONDER DECON KITS (RDK)
- (2) 200 mL READY-TO-USE CONFIGURATION DAHLGREN DECON

The **FastGrab** Decontamination Kit is a quick response bag for scenarios in which contamination is a problem. It brings together three members of First Line Technology's Decon Family into a quick response kit that is easily stored and easily deployed.

Each FastGrab includes (10) **FiberTect wipes** (a three-layer activated carbon composite wipe), (4) **FiberTect Mitts**, (4) **Responder Decon Kits** (individually packaged sets of FiberTect wipes and Reactive Skin Decontamination Lotion (RDSL)), and (2) 200 mL **DahlgrenDecon** configurations (a fast-acting, non-corrosive, three part decon solution).

This package of First Line Technology products is easily stored and deployed, requires minimal training, helps prevent secondary contamination and requires no water or external cleaning solutions in order to be effective.

PRODUCT ID: FGD-EMS-001
SIZE: 13" X 12" X 10" | **WEIGHT:** 6.5 LBS

DECONTECT

PDK

PERSONNEL DECON KIT

NARCAN® ONLY WORKS AFTER AN OVERDOSE.

**Protect yourself from accidental
synthetic opioid overdose.**

Eliminate the potential for an accidental overdose with a fast, simple, and effective decontamination process.

Exposure to even small amounts of synthetic opioids puts you at significant risk. The PDK can be stored safely in a cruiser at temperatures from -40°F to 160°F (-40°C to 71°C).

EVERY PDK INCLUDES:

(1) 200 ML Dahlgren Decon

(2) FiberTect 6" x 12" polyester wipes

(1) Mini Sprayer

(1) Stirring Rod

(1) Mixing Beaker

You no longer have to wait for the HazMat team if there is only a small amount of synthetic opioids at your scene or in your cruiser.

If you follow your department's SOP on wearing PPE, you can quickly and safely eliminate the threat using a simple, **wipe, spray, wipe** process.

Visit <https://www.firstlinetech.com/decontect/law-enforcement-kits/> for more information.

RDK

RESPONDER DECON KIT

+

(1) 42mL RSDL | (2) 6" X 12" FIBERTECT WIPES

The Responder Decon Kit (RDK) is a must-have for HazMat, EMS, and public works personnel.

Each kit includes (2) 6" X 12" **FiberTect** wipes (a three-layer activated carbon composite wipe) and (1) 42mL pack of **RSDL** (Reactive Skin Decontamination Lotion).

With RSDL and FiberTect combined, this kit is the one to have in preparation for CBRN events.

PRODUCT ID: RDK-42-612/2
SIZE: 11" X 9" | **WEIGHT:** .33 LBS

DECONTECT SOS

SYNTHETIC OPIOID SAFETY KIT

Detect. Defend. Decon.

Meet the Synthetic Opioid Safety (SOS) Kit

Quickly decontaminate small amounts of synthetic opioids with the SOS Kit designed specifically for patrol officers, narcotics agents, and any public safety professional who may encounter illicit synthetic opioids.

Kit Contents

The SOS Kit includes a **Personnel Decon Kit (PDK)** (includes (1) 200mL Dahlgren Decon, (2) 6" x 12" FiberTect Wipes, mixing beaker, stir rod, and spot-shot sprayer), an additional **12"X 12" FiberTect Wipe**, an **Opioid Detection Kit (ODK)**, **nitrile gloves**, **evidence collection tape**, **ventless goggles**, **P100 mask**, **shower bottle cap**, (2) **NIOSH compliant waste bags**, and optional **Narcan**.

DETECT

OPIOID DETECTION KIT (ODK)

First Line Technology's Opioid Detection Kit (ODK) powered by BTNX contains everything needed to rapidly test and detect fentanyl and its analogs on-scene.

The ODK contains two **swab sticks**, two 5mL vials of **sterile water**, two **test tubes**, and two **BTNX Rapid Response Test Strips** designed specifically to detect traces of synthetic opioids including fentanyl and its analogs.

DEFEND

PPE FOR FENTANYL RESPONSE

The SOS Kit includes the proper level of PPE approved by NIOSH for a moderate exposure situation to protect officers from potential exposure risk.

Scan the QR Code or visit
<https://www.cdc.gov/niosh/topics/fentanyl>
for further NIOSH guidance on fentanyl response.

DECON

PERSONNEL DECON KIT (PDK)

The PDK allows any user to remove bulk contamination with FiberTect wipes, then eliminate any remaining threat from fentanyl and other synthetic opioids by using Dahlgren Decon for a variety of immediate, tactical, operational, and cold weather decontamination needs.

See reverse for PDK contents.

DECONTECT

CDK

CIVIL DISTURBANCE KIT

Introducing the Civil Disturbance Kit (CDK)

The CDK allows responding officers to quickly decontaminate, recover, and return to their mission. This lightweight, discreet kit can be used by public safety officials, law enforcement, fire, EMS, and members of the public alike.

Individual Kit Contents

1. **Packaging** - chemical resistant, discreet MOLLE pouch, vacuum sealed contents
2. **(2) FiberTect Mitts** - for immediate bulk absorbent/adsorbent removal of contaminants
3. **Ophthalmic Saline** - for flushing eyes

4. **60-Second Bottle of Pure O2** - to speed recovery from riot control agent exposure
5. **Shower Bottle Cap Adapter** - threads onto any plastic water bottle and can be used for immediate dousing of contamination where appropriate
